Click™ Portal

Software for the business of research™

Click™ a Huron solution

Solutions configured to match your specific needs. Huron's Click™ Portal software is the platform that leading academic medical centers and other research organizations are using to accelerate and improve business processes and responsiveness in research administration, compliance, and clinical trials.

A portal for all research business processes. The Click Portal platform provides a flexible, scalable solution that connects and empowers teams, replaces cumbersome and time-consuming paper processes, eliminates redundant steps that burden and annoy both researchers and administrators, and saves potentially hundreds of thousands of dollars in compliance risk exposure.

Experience and proven practices. Combining domain expertise with a full suite of services to assist you before, during, and after your software implementation, and the most active user group in the industry, Huron provides a powerful ally in the effort to grow and manage a successful research enterprise.
