

# Struggling to Manage Your Coverage Analysis?

Outsourcing your institution's coverage analysis is an effective and useful tool that promotes proper billing compliance. If you are deciding whether or not to outsource your coverage analysis, ask yourself the following:

Are you understaffed?

Do you have a backlog of clinical trials waiting to be evaluated?

Are you missing crucial deadlines and feeling pressed for time?

Is your team trained to conduct an effective coverage analysis?

Are you unsure how a coverage analysis impacts research and compliance?

If you answered “yes” to any of these questions, Huron can help. How? We will conduct and manage a comprehensive coverage analysis process, providing a quality finished product and taking the burden off of you. With us, you can better plan and execute these critical documents—fast.

To learn more about Huron's coverage analysis service and what we can do for you, contact **Leah Guidry**, managing director, at [lguidry@huronconsultinggroup.com](mailto:lguidry@huronconsultinggroup.com).

Read **more information** about our process, team, and how our experts can help you, and **follow @Huron** for up-to-date webinar, events, and speaking engagements.
