

# IS YOUR HURON RX SITE READY FOR SINGLE IRB REVIEW

The National Institutes of Health (NIH) update on Single Institutional Review Board (sIRB) review policy applies to all competing grant applications with dates on or after Sept. 25, 2017.

Do you know your options for achieving compliance with the NIH's sIRB review policy? There are several choices to consider:

1. Extend your existing RX site to support sIRB
2. Convert or Upgrade to IRB 8.1
3. Outsource all multi-site studies to a commercial IRB
4. Do nothing

Depending on your institution's current configuration, consider your options below:

## Current IRB Solution

Huron IRB 7.X	<b>1. Migrate to 8, 2. Outsource or 3. Extend IRB 7.X</b>	<b>Normal Upgrade to 8.0 and 8.1</b>
Huron RX or Custom	<b>1. Migrate to 8, 2. Outsource or 3. Extend RX</b>	<b>N/A</b>
	Not on an Upgrade Path	On an Upgrade Path

Contact your Huron client services manager for a complimentary analysis of your options.
