

HURON'S GRANTS SOLUTION

CONFIGURABLE SOFTWARE TO SPEED BUDGETING, STREAMLINE ESUBMISSION, AND IMPROVE AWARD MANAGEMENT

ONLY HURON'S GRANTS SOLUTION

- Provides a browser-based solution that is configurable to match your needs
- Provides a centralized system for integrating grants processes with key compliance processes such as IRB, COI and Agreements
- Enables sharing best practices via the industry's most active user group

Huron Grants provides a flexible, scalable and configurable electronic grants management and system-to-system proposal-submission solution that can be used to simplify sponsored project lifecycle processes while meeting sponsor and institutional compliance requirements.

Its robust, flexible workflow provides electronic routing for internal review, notifications and error checking, ensuring transparency and a first-time grants.gov successful submissions. Comprehensive post-award management capabilities include award setup and modification entry and workflow routing reviews and approval capabilities, budget reconciliation to enter and track sponsor approved budgets, and complete integration with financial systems.

Huron Grants is part of the Huron Research Suite, a comprehensive solution to facilitate communication, relieve administrative burden, and free up time for what matters most—your research mission.

FEATURE	BENEFIT
Robust setup and configuration options	Streamline data entry and prevent user input errors throughout a sponsored project's lifecycle
Support for full proposal lifecycle, including electronic proposal submission	Provides real-time visibility into proposal processes and statuses to facilitate accurate on-time submissions
Flexible online budgeting for sponsor, sub-recipient and cost-share requirements	Standardizes budget preparation and review while complying with institutional and sponsor budget requirements
Copy and create functions provided throughout proposal and award	Automate proposal creation by repurposing large amounts of proposal data and budget data to create new submissions
Complex projects support in Grants and SF424	Automates and streamlines the preparation and submission for multi project applications
SF424 forms library	Opportunity coverage for NIH, NSF, DoD, and more
Application change tracking	Minimizes sponsored research review time

FEATURE	BENEFIT
Data mapping from transmittal and budgets to SF424 forms	Eliminates redundant data entry
S2S eSubmissions to Grants.gov	Reliable one-click application submission
Grants.gov and NIH validation checks	Ensures first submission is accurate and complete
S2S eSubmissions to Grants.gov	Reliable one-click application submission
Automated award creation	Simplify award entry through awarded-proposal processes, leveraging proposal data for new awards
Comprehensive award management	Provides one source for entering and tracking data from award setup to close out
Award budget reconciliation	Expedites award setup and improves financial accuracy
Automated proposal and award management workflow, notifications and milestone triggers	Ensures consistent processes and timely reminders to researchers and staff for pending work items and provides transparency into workflow statuses throughout the process
Sub-recipient monitoring	Standardizes management of sub-recipients
