

HURON'S IACUC SOLUTION

THE BUSINESS OF RESEARCH IS ONLY GETTING MORE COMPLEX AND CHALLENGING

ONLY HURON'S IACUC SOLUTION

- Enables adaptation of forms and workflow processes to local needs
- Incorporates design elements from industry experts
- Enables sharing best practices via the industry's most active vendor user group

In today's fiercely competitive research environment, it's increasingly difficult to maintain a world-class research enterprise—the work that moves society forward, improving health, spurring innovation and advancing knowledge.

Simplify animal protocol construction and improve turnaround times with Huron's IACUC solution. Designed to support logical and efficient protocol data entry, Huron's IACUC also improves collaboration between investigators, IACUC coordinators, training coordinators, veterinary reviewers, PAM coordinators, and committee members through all IACUC activities from new protocols to de novo reviews.

Designed to help your organization reduce noncompliance risk, Huron's IACUC solution also provides access to species, procedures, substances, training information, and inspections at any given point in time and also helps ease the creation of periodic reports for OLAW, USDA, DOD, VA, and AAALAC. Finally, IACUC acts as a compliance hub, integrating with animal management, training, and HR systems.

Huron IACUC is part of the Huron Research Suite, a comprehensive solution to facilitate communication, relieve administrative burden, and free up time for what matters most—your research mission.

FEATURE	BENEFIT
Provides infrastructure for a library of standard substances and procedures including support for: <ul style="list-style-type: none"> • IACUC review of standard procedures • Procedure versioning • Ability to promote research lab procedures to standard procedures 	<ul style="list-style-type: none"> • Enables easy maintenance of the standard library through the provided interface or through bulk import • Saves time with streamlined protocol construction and IACUC review • Eliminates data inconsistency
Comprehensive view of research lab teams <ul style="list-style-type: none"> • Team members • Training • Substances • Procedures • Protocols 	<ul style="list-style-type: none"> • Reduces administrative burden of research staff • Enables easy selection of protocol team members with current training • Streamlines data entry • Tracks which protocols are using specific procedures and substances • Provides ability to extend the delivered procedure types

FEATURE	BENEFIT
Tracking for compliance: <ul style="list-style-type: none"> • Approved departures from the Guide • Training requirements • Concerns and Deficiencies • Semi-Annual Evaluations • Post-Approval Monitoring (PAM) • Veterinary Verification & Consultation (VVC) 	<ul style="list-style-type: none"> • Complies with federal regulations • Ensures only trained personnel conduct procedures • Manages deficiencies reported from facility inspections, program reviews, and PAM audits • Fulfills reporting requirements • Provides support for veterinary review and approval of significant changes via VVC
Supports all major IACUC submissions <ul style="list-style-type: none"> • New applications, Amendments, Annual/Triennial reviews • Full committee review, designated member review, administrative approval, VVC 	<ul style="list-style-type: none"> • Reduces complexity • Eliminates redundant data entry • Automates routing of submissions for review and approval • Assists with regulatory reporting requirements
