

HURON'S IRB SOLUTION

THE BUSINESS OF RESEARCH IS ONLY GETTING MORE COMPLEX AND CHALLENGING

In today's fiercely competitive research environment, it's increasingly difficult to maintain a world-class research enterprise — the work that moves society forward, improving health, spurring innovation and advancing knowledge.

ONLY HURON'S IRB SOLUTION

- Is currently helping more than 80 leading research institutions improve their IRB compliance efforts
- Is used by more than 40 AAHRPP-accredited institutions
- Has the industry's most active user group, which shares best practices

Ensure high quality, compliant reviews with an easy-to-install, comprehensive, and extensible electronic IRB solution from the leader in IRB automation. Huron's IRB solution embeds compliant IRB operating practices from its popular HRPP Toolkit into proven Huron software. The solution combines Huron's policy expertise and human research protection best practices with electronic workflow design patterns based on 10+ years of successful software implementations.

Speed and Flexibility with Huron's IRB Solution

With Huron's IRB solution you don't have to choose between rapid deployment and configuration flexibility. Providing a full-featured comprehensive solution out of the box, the system can be rapidly configured to be up and running quickly and efficiently. Huron's IRB solution is part of the Huron Research Suite, a comprehensive suite of software solutions to facilitate communication, relieve administrative burden, and free up time for what matters most — your research mission.

FEATURE	BENEFIT
Huron HRPP toolkit SOPs, checklists, worksheets, and AAHRPP reporting	Designed to meet AAHRPP accreditation standards
Incorporates policy updates as they occur	Eliminates worry over keeping up with regulatory changes
Support for initial submissions, modifications, reportable new information, and continuing reviews	Provides 100% complete support for the entire study lifecycle
Support for multiple study models, including single-site studies, collaborative studies, and multi-site studies	Provides complete flexibility for these study models whether your institution is serving as the IRB of record or relying on an external IRB of record for any given study
Enables IRB reliance coordinators to create profiles for institutions with whom your institution collaborates on research studies	Manages relationships with other institutions by tracking authorization agreements, communication plans, accreditation status, and points of contact

FEATURE	BENEFIT
Full support for the single IRB (sIRB) of record and participating sites (pSite) in collaborative and multi-site studies	Maintains regulatory compliance with the NIH Final Policy and the HHS Final Common Rule on the use of a single IRB of record for multi-site research
Built-in integration with the Huron IRB Exchange, a cloud-based subscription service that facilitates the exchange of data between a sIRB and pSites in multi-site and collaborative research	Significantly reduces the administrative burden and staff time required to maintain multi-site studies
Comprehensive form sets with validations and document attachments	Eliminates paper processes
Electronic workflow routing and review, including parallel ancillary reviews	Speeds collaborative application preparation by study teams and reduces delays in routing and review
Integrated meeting management facility	Accelerates processing of meeting discussions and decisions into compliant records and correspondence
Automated reminders	Keeps everyone notified of important milestones and the need to attend to their part of the process
Correspondence generation	Simplifies required communications
Consent form stamping and watermarking	Ensures the study team uses only the latest, approved consent form and your own watermarks
Electronic document management	Manages the audit trail for all a document versions
Integrated on-line help and comprehensive user documentation	Makes the system easy to use "out of the box"
Built-in system integration with Huron's COI, Grants, and CTMS solutions	Cross-system sharing of information reduces errors and compliance risk, and facilitates rapid access to remote data
Hosted solution also available	Simplifies eIRB setup and ongoing operation for IT-overburdened organizations
