

# THRIVING IN A TIME OF MODERNIZATION

Government agencies continue to prioritize technology infrastructure modernization as they look to improve quality of care. This provides an unparalleled opportunity to implement innovative technologies to transform care, improve quality and enable a platform for future growth.

## MAKE YOUR TECHNOLOGY WORK FOR YOU

Government agencies can drive the effectiveness of their investments through Huron's holistic planning and implementation methodology. Huron possesses a deep understanding and strong expertise with IT strategy, deployment, and remediation. We actively engage with our clients to understand your mission, strategic goals and operational strategy for organizational improvement.

STRATEGY

GOVERNANCE  
MANAGEMENT

OPERATIONS

**Our focus in these areas enables government agencies to keep pace with the private sector by partnering with industry experts to maximize funds appropriated for IT modernization.**

We guide you in establishing and executing your organization's technology vision by:

- **ALIGNING** IT with the organization's strategic plan and business goals
- **ENSURING** IT investments are meeting the highest priority needs of the organization and that governance facilitates predictability of IT's resource consumption and spend
- **REVIEWING** the human resources and financial management of IT
- **EVALUATING** the technology, application and project portfolios, IT processes and services that support the organization's direction

## WHY HURON FOR HEALTHCARE TECHNOLOGY?

With more than 1,000 consultants dedicated to healthcare, including healthcare technology experts with an average 15 years of experience, Huron can provide assistance with any healthcare IT initiative. Our expertise spans across all areas of healthcare IT, including:
