

CAMPUS RECRUITS

WHY HURON?

Many find being a consultant challenging and rewarding. As a Huron consultant you can enjoy these opportunities:

- Contribute as a member of the engagement team by proactively looking for opportunities to assist team members and by supporting the overall goals of the engagement team
- Provide analytic support to projects with direction/guidance
- Build consulting skills and analytic techniques through client experiences and by taking advantage of opportunities to attend relevant training sessions, conferences and pursue professional certifications

Entry-Level Opportunities

Looking for a dynamic, fast-paced, challenging work environment? Want to work with top consultants in our industries? Is making a difference important to you? Then you're in the right place.

Entry-Level recruiting is an essential aspect of Huron's continued growth and development. This fall we will be hiring for Analysts in our Healthcare, Higher Education, Life Sciences, and EPM&A practice groups.

Analysts play a key role on our project teams and are a major driver of the substantial results we deliver for our clients. They enjoy an exceptionally high level of responsibility, immediate client interaction and/or tremendous access to Huron Leadership.

Healthcare

- Join the premier healthcare consulting organization dedicated to performance improvement
- Put your consulting skills to work for today's leading healthcare organizations

APPROVED LIVING LOCATIONS

Huron Healthcare professionals are a virtual workforce. They live in major metropolitan cities

throughout the US and travel every week to work onsite with our clients. Candidates can choose from 25 approved living locations throughout the US.

Education

- Work with today's leading universities and academic medical centers
- Deliver strategic, financial, operational and technology solutions
